

STATEMENT OF PURPOSE (From 1st April 2018)

Aims and objectives

Visa Medicals aims to provide comprehensive visa medical examinations to adults and children as detailed by immigration authorities in a safe, caring, healthcare environment.

Our objectives include carrying out medical examinations in a respectful, efficient and timely manner; providing staff who are dedicated, professional and courteous; maintaining individual privacy, dignity and confidentiality; and respecting the diversity of the people who use our healthcare service. In addition, a key objective is to comply with the Care Quality Commission (Registration) Regulations 2009, and the fundamental standards and regulations of the Health and Social Care Act 2008 (Regulated Activities) Regulations 2014.

Range of healthcare services provided by Visa Medicals

Visa Medicals provides independent healthcare services in the form of the following regulated activities:

- **Treatment of disease, disorder or injury**

This includes private healthcare consultations, physical examinations, health screening for immigration purposes, and the administration of childhood and adult vaccinations by registered nurses for visa purposes, under the supervision of medical practitioners.

- **Diagnostic and screening procedures**

These include screening chest X-rays, blood tests for Syphilis and HIV, and urinalysis screening for drug abuse.

Visa Medicals provides consultations, examinations, and health assessments in accordance with clients' individual travel and immigration requirements but always subject to strict medical assessment. During a consultation, an individual general medical history will be taken and clients will be advised of the necessary immigration screening procedures to be carried out. This includes full costs.
